

Environmental Policy

The Alex Fraser Group and Suncoast Asphalt businesses are engaged in Construction and Demolition Materials Recycling, and Asphalt Production and Pavement.

Alex Fraser's products have up to 65% reduction in their carbon footprint compared to virgin material. Alex Fraser has been widely recognised for successful resource recovery through innovation and persistence.

Our Goal

Alex Fraser and Suncoast Asphalt aim to provide suitable solutions to our customers while protecting and enhancing the environment and preventing pollution.

Making it happen

Both Alex Fraser and Suncoast Asphalt aim to maintain a standard of 'best in class' environmental management in all operations. We continually strive to improve environmental outcomes:

- Ensuring that all operations meet or exceed relevant environmental legislative requirements;
- Ensuring employees at all levels, including contractors, are aware of their environmental responsibilities and have adequate authority, training and resources to discharge them;
- Preventing adverse impacts to the surrounding environment using measurable objectives, targets and performance indicators to evaluate the environmental performance of operations and to identify opportunities for improvement;
- Use of innovations & technologies to minimise atmospheric emissions and noises;
- Purchasing goods where practical, that have a lower impact on the environment; and
- Continually improving our environmental performance through the monitoring and review of our environmental aspects, policies, procedures and services.

Our Commitment

Alex Fraser and Suncoast Asphalt are committed to the sustainable use of resources in our operations, products and services;

We are committed to ensuring that environmental considerations are an integral part of our decision making, management and culture;

As leaders in sustainability we are committed to reducing the company's generation of waste products, emissions and carbon footprint; and

We will ensure that this policy is communicated internally and made available to the public.
