

Alex Fraser Recycle Bin Terms & Conditions

Pricing includes 5 business days of hire; further days will be charged at \$40 per business day. If after 5 business days the bin is not ready for collection, and the customer is unreachable, Alex Fraser Group have the right to collect the bin if filled or not.

Customers are to ensure that bins are not filled with any material other than clean concrete, brick, asphalt, or rock. Any additional materials may require the bin to be disposed at a landfill at additional charges.

The Chain of Responsibility legislation precludes our drivers from transporting bins overloaded in weight and/or unsafe to carry.

Maximum weight of bins must not exceed 11T Note: trucks have digital scales on board to ensure mass compliance. Any overloaded bins will be required to be unloaded by the customer so that they are safe for transport. Bins must be loaded evenly and not exceed water level.

All bins will need to be made safe for cartage by **YOUR COMPANY** prior to bin pick up.

A **service charge of \$150** will be incurred for hook lift trucks arriving on site and finding bins in such conditions and requiring waiting time for the bin to be made safe or needing to return another time to collect the bin.

A **service charge of \$250** (futile charge) will be incurred if a truck arrives for a scheduled or requested pick up and the bin is not ready for collection and the request for transport has not been cancelled. Four (4) "business" hours cancellation notice is required.

A **service charge of \$230 per tonne** will be incurred for any bins required to be disposed at a landfill.

Standard quotes provide the truck to be onsite for ten (10) minutes to pick up and unload. In the event the truck is held up beyond ten minutes a fee of \$32.50 will be charged per fifteen (15) minute intervals.

A wait and load service can be arranged with prior notice. An additional fee of \$130 per hour will apply to wait and load services.

Bins are not to be moved or pushed around by machinery; damages due to pushing of bins will be charged to the client. Should damage occur to bins during a hire period, the client is liable for repair costs and will be notified of these costs upon final invoice.

Cartage service is subject to truck availability.

All quotes are valid for 30 days from quote date.

All rates are exclusive of GST.
